

Our Ministry's Financial Policy

We have publicly printed "any pastor is welcome to come here and check full disclosure of all personal and ministry records." We have constantly lost money since this ministry was founded in 1975. Covered by my wife and I, putting in over \$150,000 ourselves. We are retired now and can no longer afford to do this. Being under some denomination or church "covering" means nothing--as centuries of moral and financial church scandals have proven. We are open and "accountable" to anyone. We are not supported by any church, or foundation, we do not receive government funding. All specific questions by people considering supporting us financially will be answered. We are completely supported by individual, free will, tax-deductible donations. I would appreciate your help. Tom Adcock, President Jesus People Information Center
